Phone: +91-7378647099 — Email: np370768@gmail.com
LinkedIn: linkedin.com/in/nitesh-pawar31 — GitHub: github.com/NiteshPawar12345
Portfolio: portfolio-eta-eight-j17iwf0sqf.vercel.app
Location: Mangoan, Maharashtra, India

Career Objective

Motivated Computer Science student seeking a Full Stack Developer internship to apply hands-on expertise in MERN stack technologies. Proven ability to build scalable web applications with 40 percent improved database performance and 35 percent increased user engagement. Eager to contribute technical skills in React.js, Node.js, and MongoDB while gaining industry experience and working on innovative projects in a collaborative team environment.

Education

Bachelor of Science in Information Technology (B.Sc IT) **Expected April 2026**
D.G. Tatkare Mahavidyalaya, Mangoan, Maharashtra *CGPA: 8.0/10.0*

- Relevant Coursework: Data Structures and Algorithms, Database Management Systems, Web Technologies, Software Engineering, Object-Oriented Programming, Computer Networks, Operating Systems, Cloud Computing

Technical Skills

Programming Languages: JavaScript (ES6+), HTML5, CSS3, SQL
Frontend Technologies: React.js, Redux Toolkit, React Hooks, Tailwind CSS, Bootstrap, Responsive Web Design, Single Page Applications, Component-Based Architecture, DOM Manipulation, CSS Grid, CSS Flexbox
Backend Technologies: Node.js, Express.js, RESTful API Development, API Integration, Middleware, Asynchronous Programming, Server-Side Logic, MVC Architecture
Database Technologies: MongoDB, Mongoose ODM, Database Design, Schema Modeling, Query Optimization, CRUD Operations, Data Aggregation, Database Indexing
Authentication and Security: JWT (JSON Web Tokens), bcrypt, OAuth, Session Management, Authorization, Secure Password Hashing, CORS, Input Validation
Development Tools: Git, GitHub, Version Control, Postman, VS Code, npm, Chrome DevTools, Debugging Tools
Methodologies: Agile Development, Problem Solving, Algorithm Design, Code Reviews, Documentation

Technical Projects

Real Estate Listing Application — Node.js, Express.js, MongoDB, Mongoose, EJS, HTML5, CSS3 **[Project Link]**

- Developed full-stack real estate platform with advanced property search and filtering capabilities serving 500+ listings
- Implemented secure user authentication and role-based authorization system using JWT and bcrypt for 200+ users
- Designed and built RESTful APIs for complete CRUD operations with image upload functionality supporting files up to 5MB
- Created responsive frontend interfaces using EJS templating engine with dynamic content rendering across all devices
- Optimized MongoDB database queries and implemented indexing strategies, reducing average page load time from 3 seconds to 800ms (73 percent improvement)
- Integrated error handling and logging mechanisms ensuring 99.5 percent application uptime and reliability

Online Trading Platform — React.js, Node.js, Express.js, MongoDB, Redux Toolkit, Chart.js **[Project Link]**

- Built comprehensive trading application enabling real-time buy and sell orders with live market data visualization
- Implemented advanced charting features using Chart.js displaying candlestick charts and 5+ technical indicators for market analysis
- Developed scalable Express.js backend architecture managing 50+ API endpoints with comprehensive request validation
- Utilized Redux Toolkit for efficient state management across 15+ React components, improving code maintainability
- Designed intuitive user dashboard with React.js resulting in 35 percent increase in user engagement and session duration
- Implemented secure transaction handling with proper validation and error handling, reducing failed orders by 90 percent
- Integrated real-time price updates and market trend analysis to support informed trading decisions for users

Certifications

Full Stack Web Development Certification — Apna College **2025**

- Comprehensive training covering MERN stack: MongoDB, Express.js, React.js, and Node.js
- Completed hands-on projects including authentication systems, database design, and API development

Achievements and Activities

Academic Performance: Maintained 8.0 CGPA throughout B.Sc IT program demonstrating strong technical foundation
Self-Learning: Completed multiple online courses and built 3+ personal projects to strengthen full-stack development skills
Open Source: Active GitHub profile with well-documented repositories showcasing coding practices and version control
Problem Solving: Regular practice on coding platforms focusing on data structures and algorithm optimization

Additional Information

Languages: English (Professional Working Proficiency), Hindi (Native), Marathi (Native)
Soft Skills: Team Collaboration, Communication, Time Management, Quick Learning, Adaptability, Critical Thinking
Interests: Web Development, Cloud Technologies, API Design, Database Optimization, UI/UX Design, Tech Blogs
Availability: Immediate availability for internship starting February 2025, flexible with work timings
